
Quest WireFree Mate Wireless Kit

Brand: Quest
Product Code: qwmf
Availability: 5 - 7 Business Days

Price: \$148.00

Short Description

The Quest Wirefree Mate wireless kit is a transmitter and receiver kit

Description

The Quest Wire-Free mate now features an internal 1/4" socket to plug your headphones into, and a rotary on/off Volume control, a battery level meter, and approx. run time of 24 hrs.

Great little system, with very low delay. NOTE: Transmitter plug and Receiver socket are both 1/4" (6.35mm). This is the standard size for most detectors. **Features:**

- Works perfectly with your favourite headphones
- Transfers the original audio signal with no distortion
- Volume Control
- Only 0.06s delay
- Splash proof 1 touch button control
- 24 hours run time (approx.)
- Easy to attach & secure
- USB rechargeable
- No interference with VLF or PI detectors
- Does not affect detectors warranty
